Test Steps and Results

Step	Action	Expected Result	Actual Result	Status
1	Open Authorized Partner URL	Page loads successfully	Page loaded	PASS
2	Fill signup form	Form accepts valid input	Data entered	PASS
3	Submit signup form	OTP sent to email	OTP received	PASS
4	Enter OTP	Account verified	Verified successfully	PASS
5	Enter agency details	Details accepted	Submitted	PASS
6	Enter professional experience	Data saved	Saved	PASS
7	Upload verification documents	Files uploaded	Uploaded	PASS
8	Final submission	Signup completed	Signup successful	PASS

Observations & Logs

OTP Retrieval	Mailosaur message found and 6-digit OTP parsed successfully.
Navigation	All expected step URLs were reached during the run.
Form Submissions	No client-side validation errors observed in scripted run.
File Uploads	Both file inputs accepted the provided PDF path (Test.pdf).
Exit Code	0 — No unhandled exceptions raised during the last run.

Conclusion

The signup automation script successfully exercised the complete happy-path of the Authorized Partner signup flow. All 8 test steps passed without any unhandled exceptions (exit code 0). OTP handling via Mailosaur, multi-step form submissions, and document uploads were all validated successfully.
